## 陶芸

### Ceramic Art

文化文明、産業技術の発展により「火」という自然の力の扱い方も変革し続け、多岐に渡る技術交流、情報伝達も伴い、今日では世界各地で多種多様な「現代」の陶芸が存在しています。

陶芸を通じ、手仕事の心がより一層中野の地で根付くように、文化伝統が現代からも新しい形で生み出されていくような活動をしていきたいです。

東京中野区生まれ、育英工業高等専門学校デザイン工学科、京都造形芸術大学・彫刻コース卒業後、京都の陶芸工房で修業。

その後、東京へ戻り中野で陶芸工房を立ち上げる。

Through the development of culture, civilization and industrial technology, our use of the natural force "fire" has continued to change. Various exchange of technology and information through history has resulted in a wide variety of "modern" ceramics across the world today. I want to make the spirit of handcrafting take root in Nakano through ceramic art, so that cultural traditions are created in new forms even today.

Born in Nakano. Graduated from Salesian Polytechnic, Department of Design Engineering and Kyoto University of the Arts, Sculpture Course. Trained at a ceramic art studio in Kyoto. Later returned to Tokyo and established his studio in Nakano.
